Notes for Current Month NTA Position:

- (1) The Company's investments in Associated Entities (i.e. in which the Company has a greater than 20% interest) are accounted for under the equity method in the consolidated financial statements.

Under the equity method, the carrying amount of each such investment is cost plus a share of the Associate Entity's net profit or loss (after tax) for the financial year to month end as provided to the Company by each such Associated Entity.

Accordingly, as at 31 October 2006 the Company's:

- (i) 28.38% interest in BEL has a carrying value of \$0.4081 per share (\$4.602m); this compares with BEL's last bid price on ASX of \$0.43 per share (\$4.849m) and BEL's after tax NTA backing of \$0.5037 cents per share (\$5.680m) at month end;
- (ii) 28.35% interest in SCB has a carrying value of \$1.0635 per share (\$5.823m); this compares with SCB's last bid price on ASX of \$0.875 per share (\$4.791m) and SCB's after tax NTA backing of \$1.0478 per share (\$5.737m) at month end.
- (2) The fair value of the Consolidated Entity's investments in other listed securities are based on each securities' last bid price on market at month end.
- (3) The fair value of the Consolidated Entity's investments in unlisted options, being the following unlisted options in ASX listed Strike Resources Limited (SRK), is based on a Black-Scholes options pricing valuation model:
- (a) 1,833,333 options, each to acquire one SRK share at an exercise price of 20 cents, on or before 9 February 2011; and
- (b) 1,666,667 options, each to acquire one SRK share at an exercise price of 30 cents, on or before 9 February 2011.

This valuation has been calculated using the Black-Scholes option pricing model applying the following assumptions:

- (i) SRK's share price being \$1.71 (the last bid price as at 31 October 2006). The Company notes that SRK's last bid price was \$1.48 as at 13 November 2006;
- (ii) A risk free rate of return of 6.03% (based on the Commonwealth 10 year bond rate as at 31 October 2006).
- (iii) An estimated future volatility of SRK's share price of 60%.
- (4) The Consolidated Entity's investment in real property is carried at cost.
- (5) Tax Provision Item (c) includes a provision for income tax on net unrealised gains on the Company's investments in securities and its share of Associated Entities' after tax net profit for the month (deferred tax liability) and the recognition of future income tax benefits on net unrealised losses on the Company's investments in securities and its share of Associated Entities' after tax net loss for the month (deferred tax asset).
